

NCQA Corrections, Clarifications and Policy Changes to the 2021 MBHO Standards and Guidelines

March 29, 2021

This document includes the corrections, clarifications and policy changes to the 2021 MBHO standards and guidelines. NCQA has identified the appropriate page number in the printed publication and the standard and head—subhead for each update. Updates have been incorporated into the Interactive Review Tool (IRT). NCQA operational definitions for correction, clarification and policy changes are as follows:

- A **correction (CO)** is a change made to rectify an error in the standards and guidelines.
- A **clarification (CL)** is additional information that explains an existing requirement.
- A **policy change (PC)** is a modification of an existing requirement.

An organization undergoing a survey under the 2021 MBHO Standards and guidelines must implement corrections and policy changes within 90 calendar days of the IRT release date, unless otherwise specified. The 90-calendar-day advance notice does not apply to clarifications or FAQs, because they are not changes to existing requirements.

17	Policies and Procedures—Section 2	Add-On Survey	Add the following as the last sentence in the fourth paragraph: The new product/product line must be included in the organization's next survey; it may not go through another Add-On Survey.	CL	3/29/21
19	Policies and Procedures—Section 2	Accreditation Survey Types	Add the following information at the end of "Accreditation Survey Types" in Section 2 of the Policies and Procedures: CAP Survey A Corrective Action Plan (CAP) is required when an organization does not meet the minimum threshold for one or more must-pass requirements. The CAP must be submitted to NCQA within 30 days of receipt of the final Accreditation status. NCQA advises the organization if the CAP is approved. The organization must undergo a CAP Survey that focuses on the failed must-pass elements. If a CAP Survey (required if one or more must-pass elements do not achieve an element score of 80%) and Resurvey are required at the same time, NCQA will review for completion of the CAP during the Resurvey. NCQA schedules the survey for submission 6 months following the last full survey, with the file review date 4 weeks later. The organization's Accreditation status on the report card is noted with "CAP Status Modifier" during the corrective action period. The fees for the CAP Survey can be found in the Pricing Exhibit on My NCQA. The look-back period begins on the date of implementation of	CL	3/29/21

			<p>the corrective action and ends on the submission date of the CAP Survey (this may be between 3 and 6 months).</p> <p>After the organization successfully completes the CAP Survey, the CAP Status Modifier is removed from the organization’s Accreditation status. The expiration date of the Accreditation status remains the same as the date specified in the decision that precipitated the CAP Survey.</p> <p>If a CAP Survey is unsuccessful, the Review Oversight Committee (ROC) may:</p> <ul style="list-style-type: none"> • Extend the CAP, <i>or</i> • Reduce the organization’s status from Accredited to Provisional or from Provisional to Denied, <i>or</i> • Issue a Denied Accreditation status. 		
25	Policies and Procedures—Section 2	A Standard’s Structure—Look-back period	<p>Add the following subhead and text as the last paragraph: <i>Expanding the look-back period for records and files</i></p> <p>For Renewal Surveys, if the organization has fewer than 40 files when it submits its completed survey tool, NCQA expands the look-back period in 6-month increments to allow more files to be included in the file universe. (This extension is optional for Initial Surveys.) The extension does not go past the date when the organization completed its last survey.</p> <p>If the extension yields a file universe of fewer than 8 files, all files are reviewed, results are documented in the survey tool as a comment or issue and file review elements are scored NA.</p> <p>If the extension yields a file universe of at least 8 files but fewer than 40, the normal 8/30 file review process applies.</p> <p>If the extension yields a file universe of fewer than 30 files and the first 8 files do not meet the requirements, all files are reviewed.</p> <p>File review element scores are based on file review results.</p>	CL	3/29/21
